

Partition wall / Clear & Connect

Application: Interior Glazing — Related Industry: Architecture.

Customer benefit:

- Highly transparent for clear bonds with absorbing and sealing properties
- Time and cost saving application process- approx. 60% compared to silicone (see tool sheet)
- Dirt-repellent due to passivated edges- easy to clean

Products:

- DuploCOLL® CPT 9621 (2 mm)
- DuploCOLL® CPT 9630 (3 mm)
- DuploCOLL® CPT 9640 (4 mm)

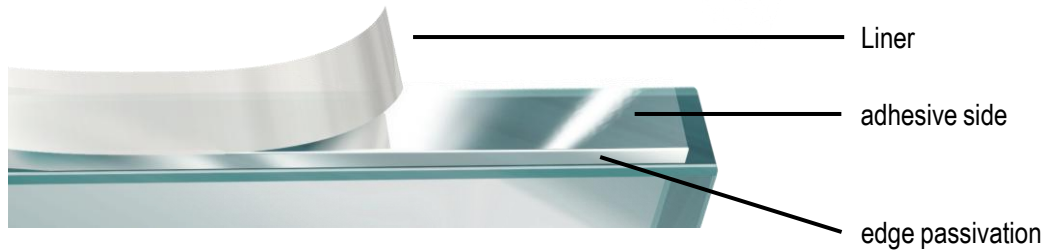

Status: A_8000_BRE_en / November 2013

Partition wall / Clear & Connect

Application: Interior Glazing — Related Industry: Architecture.

Material properties:

- Excellent stress-absorber
- Elasticoviscous, balances glass tolerances
- High initial tack, lasting ultimate bonding strength
- Resistant to cleaning agents and softeners

Lohmann patented edge passivation:

- The production process enables a non-stick coating of roll edges
